

A. Runnels

Dear Partner's in Physical Therapy,

Thanks for all you have done for me. I really like that I can walk much better. I'm glad that happened. When I came I didn't think it would work but it did. Thanks for everything.

Love,
A. Runnels

B.J. Weeks

I would just like to thank the entire staff at Partner's in Physical Therapy for their support, knowledge and teamwork that I received for nine months. When I arrived in April of 2007 I could barely lift my left arm. I had been going to therapy at another PT clinic and was getting worse every day. I could not get dressed by myself and could not sleep because of the pain. When I went back to Dr. Wolf he sent me to another doctor who decided I had a frozen shoulder. He decided to try therapy again and at that time I chose to go to Partner's in Physical Therapy. Thanks to Lauren Gilley (who by the way is my God child) I am using my arm and have no pain. Lauren worked with me three days a week and gave me exercises and things to do for the pain. If I had listened to all of the other doctors they were convinced I needed surgery and pain pills.

I would and have recommended Partner's in Physical Therapy to all who are in pain. You are an honest group of people who will lead folks in the right direction. Everybody feels at home and you all have become like family to me. Lauren, I am so very proud of you and admire and respect the knowledge of the body that you have. Ms. Freddie, thank you for helping me out with insurance and working with me when Lauren was out. Your whole staff is great. Please call on me if I can ever help you out in any way. Thank you once again for giving me my ability to do for myself and making me pain free.

Sincerely,
B.J. Weeks

I came to Partner's in Physical Therapy about four weeks ago. I had fell on a knee replacement, which was hurting an awful lot. I thought I would have to live with the pain the rest of my life.

I thought they were like every other place I've been to. It would be torture, but it wasn't. They have a way of making you feel better without hurting you. It was a wonderful experience.

The people have the ability to understand your pain, and they are kind and care.

I would recommend them to anyone. Thanks to them I didn't go home crying after therapy.

B. Elliot

C. McMillin

Dear Friends in Christ,

While in seminary in New Orleans I began having headaches. Physicians there diagnosed a nerve problem in my neck, telling me I would just have to take anti-inflammatory medications the rest of my life.

I work a lot with students from McNeese and one of them told me I should try Partner's in Physical Therapy. I did – five years later – NO headaches, and NO medications. WOW! The staff not only enlivened my body with health, but also my soul.

Thanks for the relief,
FR C. McMillin

I found the therapists at Partner's in Physical Therapy to be very professional and comforting. I was hesitant to take therapy at first because I didn't feel as though it would accomplish much. I pretty much started the sessions at the insistence of my wife.

However, Freddie Regan made me feel very comfortable after my initial visit. Subsequent visits added to the good feeling I was gaining from attending the sessions. Each one of the therapists went out of their way to make me comfortable and to make sure I understood all of the procedures. They were very gentle and accommodating at each session.

Above all, I found the sessions to be quite helpful in improving my condition. With each session, I could sense improvement in my movement range. Also, the staff supplied me with adequate material to take home so that I could continue therapy sessions at home. I found these additions to be extremely helpful. As I continue these home exercises I expect to continue my improvement. If I should ever find myself in need of continued therapy, I will not hesitate to use Partner's in Physical Therapy.

E. Kershaw; June 19, 2008

I came to physical therapy because of falling as a result of CNS lymphoma. The cancer was treated and is gone, but I still had balance problems. With the help of Partner's in Physical Therapy the balance is better and I am improving.

Thank You

I. Foreman

At the age of 77 I was diagnosed with severe degenerative disease which was causing pain in my neck. My doctor sent me to Partner's in Physical Therapy. I was pretty sure that physical therapy would not help especially at my age, but I was wrong. After a few weeks with a professional staff, I am now pain free. However, I must continue to do the exercises they taught me.

I would like to express my gratitude to Freddie Anne, Katie, Mark, Sonya, and all of the staff at Partner's in Physical Therapy for the changes they made in my life!

I had an accident in January, 2007 which left me deaf, out of balance, and with no confidence at all.

I had other therapies when I was hospitalized in Houston, but none compared to the quality of care, professionalism, and compassion that I received from the staff at Partner's in Physical Therapy.

They actually made getting better fun! I looked forward to coming to therapy! They changed my life!

K. Bailey

Mrs. Freddie, Lauren, Katie, and Staff,

I just wanted to tell you guys thank you so much for taking care of me over this last year. I really believe I was sent to Partner's in Physical Therapy for a reason. I needed comfort, and you gave it to me. I needed understanding, and you gave it to me. I needed compassion, and you gave it to me. You all gave me an abundance of God's grace during a difficult period in my life. I left every session feeling like you guys truly, genuinely cared for me and did everything you could to relieve my pain. I am reminded of a scripture in Psalm 147:3, it says "God heals the broken hearted and binds up their wounds." The amazing thing about God is that he uses people to fulfill his purposes in our lives. Everyone of you is being used in a big way to help people find healing for their wounds but also their hearts. I appreciate you guys more than you'll ever know.

L. Stawecki

Several years ago I unfortunately experienced a spontaneous disc rupture that was unresponsive to conservative treatment (including physical therapy from another facility in town). I ultimately underwent cervical spinal fusion but was left with chronic pain and feelings of hopelessness from my limited lifestyle.

After years of suffering, I fell into the hands of "Partner's in Physical Therapy." This incredible team of practitioners has literally raised me from the dead! I can't even begin to explain how it happened...but through gentle motions and interactive hands-on therapy my pain began to disappear. I now feel fully functional, completely pain free, and able to do all the things I want to do.

Thank you Partner's in Physical Therapy, for giving me my life back. I am a success story because of you!

L. Findley

Just a note to tell you how much I have enjoyed getting to know you - especially Lauren, Katie, and Josh whom were the three that mainly worked on/with me. You taught me lots even when the things you had to do to me weren't real comfortable – you did them with lots of care and compassion and you are to be commended.

Everyone I came in contact with from the reception area and beyond were kind at all times and gave first class client service (not something you see these days in most places of business).

Thanks for everything you've done for me. Hope you enjoy this small token of my appreciation!

Sincerely,
L. Findley

M. Moses

When I first came to Partner's in Physical Therapy I was in a lot of pain and I was having trouble walking and keeping my balance. I had to use a cane when I walked. I had fractured a disc in my lower back. The doctor's did all they could for me. I was still having problems and still in pain. I could not stand or sit for very long. I asked the doctor if I could try some more P.T. at this clinic. The treatments were different, and they got me to walk better and the pain lessened.

I found I could do things that I couldn't do before. I could stay up longer and enjoy shopping.

They are the best group I had been to. Even my doctor, Dr. Springer, could tell the difference.

A very satisfied patient,
M. Moses

M. Wheeldon

Dear Ones,

Thank you so much for your professionalism and kindness during my recovery. You have truly given me my life and my “feet” back. Thanks again for everything!

M. Wheeldon

S. Prentice

To Whom It May Concern,

On October 7th my husband and I were rear-ended in an auto accident. Our insurance carrier asked that we seek follow-up medical care with our family physician which we did. His recommendation – physical therapy to be sure that our old and achy bodies would be ok and I became a patient of Freddie Regan.

My first visit was a very thorough comprehensive medical history. And then the fun began as she started to explore the root causes of my back problems. This journey was amazing as she carefully worked out kinks that brought much relief for so many gripes that I had thought to be problems of “old age.” The staff was very capable, caring, and professional.

And now as I near the end of these sessions I want to thank the staff – but most especially – thank you Freddie. I leave with so much improvement and the knowledge that “old age” aches and pains can be helped.

I recommend, without reservation, Freddie Regan and her staff. They truly made a new person out of me – and I am confident she can do the same for you!

Success Story 1

Six weeks ago I was in severe pain 24 hours a day. Doing the simplest task could put me in bed for days. I could not turn my head in either direction without turning my body – my back, legs, hips, everything hurt. After therapy I am completely pain free! I can do things now that I dreaded doing before. I actually look forward to cleaning my house!

I cannot thank you enough for everything you all have done for me – you have given me my life back!!!

A BIG THANK YOU TO OUR PATIENTS FOR SHARING THEIR STORY!
